# Edwardian

The Edwardian wardrobe styles itself from the classic English panelling and doors that graced our houses from the Georgian period, through Victorian and Edwardian periods, distinguished by a 5 panel make-up. The Edwardian period brought around a more simple use of materials. However the style of this wardrobe is, we feel, timeless and will suit a variety of periods of home, right up to modern day.

# Deco

The Art Deco movement influenced a unique style which, as with The Edwardian period and in time terms only lasted 15 years or so, but the resulting designs never died. Decadent line orientated shapes create an ambience and a visual splash of fun, with structure and a hint that, behind the doors, the owner will dress to impress!

Inspired by the Edwardian Linen Press, the classic panel doors sit atop deep, wide drawers on smooth Hafele runners. This classic wardrobe run will complement British period houses and work especially well on a run along a wall, end-to-end. Furniture Art at its finest, added to high functionality. Really pleasing on the eye, expertly crafted, made to measure fitted wardrobes.

# Victorian

## With Mirror

This design crosses over two periods of furniture design, cleverly combining The Art Furniture Movement with Arts & Crafts influences. Our Victorian wardrobe involves a 3 panel construction which, with use of mirrors, provides a twist to the more classic designs of that period. The style provides a difference to the design of Edwardian Mirror wardrobe.

# Bubble

Originally designed for Russell Brand, and using an irregular fretwork within a regular form, Bubble personifies individuality in furniture design; it distances itself from the pack creating a statement of contemporary freedom. Often the choice for daughters' and sons' bedroom wardrobes. To us, style has no boundaries, it's bubblicious!

Pop's circular shaped fretwork creates a stunning wardrobe look especially into and around corner wardrobes.
